COLTER SAYS NEW SHORT CUT ASSURED

That the proposed new road from St. Johns and southern Apache coun-ty to some point on the Santa Fe main line in the same county is as-sured, was the statement of Senator Fred Colter of the northwestern county, who was in Phoenix yester-day, on his way home from the ex-position.

"Whether the new road will be built to Navajo, or to Adamana has not yet been determined," said Sena-tor Colter yesterday, "but a new and shorter route to the railroad will certainly be constructed in the not-distant future." Personally Colter favors Adamana, near the west line of the county as the logical point for a new trading post in Apache county.

A road there instead of west to Hol-brook, he declares would save about twenty-five miles, and its construction would be of real benefit to the entire county. Limited trains on the Santa Fe make Adamana a regular stop, that being the station for the petrified forest, and with the con-struction of the new highway it is expected that much of the business which has formerly gone to Hol-brook would be diverted to the new town.

It was Senator Colter's first visit to the capital since the adjournment of the legislature, and he spent a busy day shaking hands with friends and acquaintances around the city. He left for the north last night.

BIG PROFITS IN MAIL SWINDLING

Postoffice Authorities Are Using New Plan for Stop-ping Use of Mails for Fraudulent Purposes — Millions Have Been Made

WASHINGTON, D. C., Oct. 14.—(Special).—Fraudulent schemes rang-ing from offers of \$100 to girls for the use of their photos in advertising, to the sale of finger rings supposed to cure everything from St. Vitus dance to adenoids have swindled the Amer-ican public of more than \$233,000,000 in the last four years, according to post-office officials.

In an effort to reduce this wholesale victimization the postoffice department has issued fifty-six fraud orders during the last year. The issuance of such an order denies the person named in it the use of the mails.

"The number of fraudulent schemes has been greatly diminished," said J. Julian Sutherland, assistant solicitor of the postoffice department, who passes on most of the fraud order cases, "but the records show that during the last four years the schemes suppressed had filched from the public over \$233,000,000. One concern had receipts of over \$350,000 last year. The promoter of a fake anti-fake preparation spent \$50,000 in a single month on advertis-ing."

"During the last four years the de-partment had had over 15,000 cases in-volving fraudulent use of the mails, and during that period has received and an-swered about 200,000 communications relating to fraudulent use of the mails."

Last year investigations were un-deraken in 4,000 cases, and over 40,000 complaints and inquiries were re-ceived.

During the Taft administration com-paratively few fraud orders were is-sued, it being the position of the chief executive that persons guilty of vi-olating the postal laws should be prose-cuted in the courts.

It was pointed out, however, that legal delays of one sort and another often made it possible to conduct a fraud-ulent business for months and years. Even after conviction the fine was often much less than the government's cost of prosecution.

The present administration has adopted the policy of issuing a fraud order wherever one is believed to be warranted.

NORTHERN NORMAL HAS A CADET CORPS NOW

Flagstaff Boys Enjoy First Shooting Match With Their New Army Rifles

FLAGSTAFF, Oct. 14.—The company of cadets recently organized at the Flagstaff Normal school is doing splendid work. The members show the greatest interest in their work and have advanced wonderfully in their ability as marksmen.

The talk given by Capt. John Mathews, on the "Units of the Com-pany and Duties of Commissioned and Non-commissioned Officers," proved most interesting. Officers were after-ward elected and meetings will be held every Friday evening.

Saturday will go down in the chron-icles of the cadet company as the first day that the U. S. army magazine rifles were actually fired by the Flagstaff Normal school cadets. The shooting took place on the rifle range north of Flagstaff. Each cadet fired five shots kneeling and five shots sitting at two hundred yards. Peep sights were used and the scores are considered very good for those just learning to use an army rifle.

WAS OCCUPIED ANYWAY

The foreman of a gang of railway men has more than his share of Irish wit.

The other afternoon he was walking along his section of the line when he found one of his laborers fast asleep in the shade of a hedge.

Eying the man with a stern smile he said slowly:

"Sleep on, ye idle spalpeen—sleep on. So long as ye shape ye've got a job; but when ye wake up ye're out of wurk."
